OUR PRODUCTS

Green Products for Oil Wells

Developing and producing eco-friendly Enhanced Oil Recovery (EOR) products using innovative engineered enzymes and state-of-the-art nanotechnology

Green Products for Gas Wells

Creating and manufacturing eco-friendly slow-release foaming technology (Soap Sticks) products using advanced, cutting-edge nanotechnology

Green Products for Biorimmediation

Remediation of hydrocarbon hazardous wastes, employing fully biodegradable products specifically designed to harness nature's microorganisms

Water Treatment with Cavitation

Multi-Phase Reactor based on cavitation. This approach focuses on the treatment of wastewater, upstream Oil & Gas produced water, and desalination

WHY US?

Product Research

Our R&D team is dedicated to developing innovative, eco-friendly solutions to reduce the carbon footprint of critical upstream and downstream Oil & Gas operations.

Design & Develop

We've been thoughtfully developing our EOR, Soap Sticks, and Bioremediation products with an emphasis on environmental protection and the well-being of the workers who rely on them

Management & Marketing

Our expertise covers legal, financial and high-tech industries. With this diverse background, we act as a dependable "bridge" for business across Europe, Asia, the Middle East, Africa, and America.

WHAT OUR CUSTOMERS SAY

I have been extremely satisfied about their professionalism, skills and extreme courtesy. I will certainly be glad to work again with them in the future and I look forward to it. Keep up with your great job!
